

# LSTM research

Bernhard Nornes Lotsberg

January 17, 2020

## LSTM

- RNN with long and short term memory
- wow

## Usage of existing code

- Notebook tutorial for using LSTM used in paper [1] can be found at [https://github.com/kratzert/pangeo\\_lstm\\_example](https://github.com/kratzert/pangeo_lstm_example)
- Code for paper [2] can be found at [https://github.com/kratzert/ealstm\\_regional\\_modeling](https://github.com/kratzert/ealstm_regional_modeling)
- Code for paper [3] can be found at [https://github.com/kratzert/lstm\\_for\\_pub](https://github.com/kratzert/lstm_for_pub)
- Spend most time on the first paper in the beginning, it is important to actually understand how an LSTM model works (not to mention RNNs in general!).
